Scope of Focus

We understand that large organizations (resource centers, franchises, etc.) have diverse and complex needs. Our approach focuses on targeting specific aspects within your organization such as creating partnerships to pool resources, reviewing job descriptions to include sustainability standards, and even web development to track customer satisfaction. This targeted approach ensures that our efforts are concentrated where they can make the most significant difference, especially since Catalyst17 does not take a traditional consulting approach but utilizes the youth to put into practice what they learned.

How to Get Started

Here are the steps to initiate our collaboration:
